CHINESE POLICY.

The following is said to be the policy of the Chinese government now being pursued in their intercourse with United States, as laid down by Broadstreet's Commercial Directory, which says:

The Chinese government has surprised California by revealing a policy quite unexpected. It has inaugurated an official retrograde emigration of Celestials back to China! The last outgoing steamer was engaged to take back its full complement of working Chinamen for government industries, with orders to the consulate to continue selecting skilled hands best versed in our mechanical arts, etc. The policy appears to be to continue sending raw natives, but not materially to increase the number of our Mongolian population, skilled Chinamen being taken away in proportion. This is admirable strategy. China undoubtedly means business, and has determined to enter into general manufacturing, to employ her people and to compete with other nations for the trade of the Orient. We have sufficiently trained a few hundred thousand of her people in all sorts of occupations, and given them skill in the use of modern machinery, and they prove remarkably skillful in everything they undertake. With this nucleus for a start, Chinese industry, economy and perseverance, may soon make their rivalry felt.

We see nothing in this to be surprised at, as their intelligence and industry has always been acknowledged, and their ability to not only successfully compete with us in any of the industries in which they engage, but to drive us from the field has been practically demonstrated upon a large scale in San Francisco, and to a less extent throughout the State. This being the case with the Chinamen now among us, taken from the lowest order of their society, it is reasonable to suppose that the high dignitaries of that empire are far superior in all the attributes of intelligence and mental power, and are possessed of a full knowledge of the science of government. The latter gained within the last twenty years in their forced contact with the outside world.

In all matters of diplomacy they have proven themselves at least the equal of the great powers of the earth, and it is questionable in our mind whether they do not eventually drive every foreign flag from the Chinese seas and absorb all the carrying trade with foreign nations, and successfully drive the products of other nations from the market. That they can manufacture cotton goods, silks, cloths, and in fact every article of commerce—having the machinery and skilled labor at hand—cheaper than any other nation, no Californian will deny, and being so, it follows as only a question of time before this state of facts will actually exist.

France, Germany and England will be the great sufferers in the operations of this policy, as with them it will be a race for life, and it is more than possible that seeing the danger they may avert it by force.

NEARING A JUNCTION.

From our New Mexican exchanges we learn that the Atchison, Topeka & Santa Fe road has rails laid 40 miles south of Fort Craig, and about 16 miles north of where the road will turn to cross the Rio Grande, on its way to the Florida mountains, where it will meet the Southern Pacific. From Martin's Well, south of, and on the west side of the river, grading is being done. It is the intention to meet the other road by January 1, 1881. From San Marcial, which is the last station on the road at the present writing, to Martin's Well, 39 miles, the rails are laid, but passengers and freight are left at the former place. It is claimed by the management that this road will be completed to the Florida mountains, south of Fort Cummings, by the first day of the coming year. It appears to us to be an Herculean effort; but a company that has accomplished so much may be able to do even that.

The Southern Pacific will be at a point on the Rio Grande 65 miles east of the Floridas, by the time the A. T. & S. F. line reaches the Floridas. The S. P. people are building the road at the rate of three miles per day, and will certainly be at El Paso by February 1, 1881. The main line of the Atchinson road is also aiming for El Paso and the City of Mexico; and between these two points they are said to have 6,000 men at work. The Texas Pacific are pushing their line along to El Paso. This company has purchased old Fort Bliss, one mile and a half below El Paso, for a station, and paid $10,000 for it.

THE GULF STREAM.

An entire revision of the maps of the Eastern Hemisphere is now in order, recent discoveries settling the fact that the gulf stream is not a gulf stream, and does not touch the Gulf of Mexico; but comes from the east of Africa to the Carribean Sea, striking the coast of Yucatan and passing through the Straits of Yucatan and Florida into the Atlantic Ocean without touching the Gulf of Mexico.

ALL AROUND.

The Leader simply lies—lies deliberately.—[Cleveland Plain Dealer.

The Eureka Con. paid its ninety-first dividend last Saturday. The total sum paid out so far is $4,430,000.

The Del Norte (Col.) Prospector says: The rattle and bang of a 200-stamp mill will be heard on the banks of the Rio Grande river next spring.

Well, now, shall we go right along and cut down the army a little more, or will he feel too lonesome if we discharge the other one. [Boston Traveler.

Santa Barbara county has thirty-one bee-keepers, and has produced for export this season 257,800 pounds of honey. The number of stands of bees, as estimated October 1st, is 3,655.

It is reported by the New York Real Estate Record that money has been raised in New York to build a narrow guage road from Bodie to the wooded mountains south—about forty miles.

A stranger in Galvaston asked an old resident how malarial fever could be distinguished from yellow fever. "As a general thing," was the reply, "you can't tell until you have tried it. If you aint alive, then it is most likely yellow fever."

Professor Woodward, Supervisor of the Census, has completed his work of re-enumerating the city, and announces officially that the population of St. Louis on the first of last June was 350,015. This is an increase of 26,719 over the census taken by Supervisor Solomon.

A service was recently announced at St. Matthew's, Sydenham, England, "for children of the upper classes." Whereupon the following amendment to the well-known saying was promptly offered a commentator: "Suffer little children of the upper classes to come unto me."

A darkey who was stopping to wash his hands in a creek didn't notice the peculiar actions of a goat just behind. So when he scrambled out of the water and was asked how it happened, he replied: "I dunno know 'xactly; but it 'pears as if the shore kinder histed and froed me."

The yield of the sugar plantations of Louisiana is estimated at 200,000 hogsheads, but it is feared that the entire crop cannot be harvested in good condition because of a lack of help. In Texas, Louisiana, Mississippi, Arkansas and Southern Missouri, the cotton picking goes on slowly for the same reason.

The hotel-keepers of New Orleans, who have decided to employ white girls as waiters, say that they havs no trouble in securing them, and say that respectable families apply almost daily for places for their daughters. The girls like the work and give satisfaction, both to employers and their guests.

The government inspectors who were to inspect another completed division of the Northern Pacific road, started to cross the river at Bismark in a boat on the morning of the 16th inst., and when they got out in the middle they got stuck in the ice, which held the boat solid till next morning. It was a cold time for them.

"No, marm," said the shoe dealer, "I would like to give you a smaller pair, but to sell you anything below eights would render me liable under the statute for the prevention of cruelty to animals." He didn't sell her anything under eights or over it. Some women are so touchy about the size of their feet.—[Boston Transcript.

The Mississippi River Commission has adopted resolutions calling on the House and Senate to pass bill 6,336, now pending in the House, for the improvement of the Mississippi river; also a resolution favoring the establishment by Congress of regular and continues mail service between New Orleans and the West Indies, Central and South American ports and Brazil.

The celebrated traveler Vamberg, whose long residence and experience in Asiatic politics gives his opinions weight and standing, says: "Turkey has been deprived of power, consideration and a future. The old order of things has been destroyed, and nothing put in its place. It is only necessary to go one pace farther, and the greater part of classical Asia will be enveloped in a devouring flame."

A MERCHANT SAVES A WOMAN'S LIFE.—A once beautiful and noble but now fallen woman went into one of the prominent stores on Broadway Saturday, and after making some purchases asked a clerk to show her into the yard. He politely complied with her request. After a time the proprietor, who suspected something wrong, stepped into the yard and saw the woman unfolding a small piece of paper and as she was putting it to her mouth he rushed forward, for he suspected that it was poison, and snatched the paper from her hand. The paper was marked "strychnine—poison," and bore the name of a Sacramento druggist. The woman was found to be somewhat under the influence of liquor. She was taken in charge by friends. [Oakland Times.

Of corsets a queer thing to say—but we wish we wer a corset.—[Atlanta Constitution. Only badly shaped girls wear corsets, and if that's the kind you want to squeeze, durn your taste.—[Avalance.

Wrong, neighbor. The best naturals wear them. It's a necessity.

FRIDAY.....DECEMBER 3, 1880

NO STOCKS TO-DAY.

Owing to the storm on the summit, we are without our usual stock report.

Bad Man from Reno.

Reno aspires to the notoriety of Bodie in shooting and cutting matches, and will soon take the laurels from Bodie's brow by actually earning the soubriquet of "the bad man from Reno." A shooting encounter is getting to be too common occurrence in that once moral community. First it is Johnny Quinn, a good man, who takes a shot at his brother-in-law for some imaginary offense. Then comes Dave McFarland, one of the best men in the place, who blazes away at an ugly disputant. And now comes Pete Dalton, a restaurateur, who takes a shot at Nadon's head. These little incivilities are getting to be too common in the riverside town to be really pleasant to the residents. Being perfectly willing to loose a cognomen that may have been honestly earned, it would be more agreeable to have it taken by a mining camp than a cow county town—as for the sake of the good name of the coast it is desirable that these counties should retain, in the interest of morality and the church, their good name as peaceable, law-abiding communities.

Silver Hill Mill.

This mill, situated on the west slope of the Silver Hill, in easy reach of the Silver Hill group of mines, is fast approaching completion, and is expected to commence crushing ore by the 1st of January next. The building is all finished. The foundation for the engines—a heavy, substantial piece of masonry—is completed, and ready to set the engines in place. The finishing touches on the battery are now being done. The pans are set in place and geered ready for operations. This mill has 10 stamps, and will be fitted up with all the modern improvements for the efficient and economical working of our ores. It will be run as a custom mill, and its favorable location warrants the conclusion that the venture will prove a most eminent success.

Indignant.

A Mr. Benjamin Hayes of East Oakland is terribly indignant at discovering a pest house filled with smallpox patients within one hundred feet of his house. He made the discovery by seeing a sick man carried in, and war commenced. Indignation meetings were called and a petition to the Board of Aldermen is now pending. By the time action is taken the smallpox will be over, unless Mr. Hayes family should take it. This is a burning outrage and should consign the Board of Health to something worse than retirement.

Stage Returns.

Last evening the U. S. M. stage started on time with a light load and six fine horses for Carson. Progress through town was slow, and down the canyon—Snail's pace—the land-marks were all covered with snow, the drifts being high, and the driver run by guess work, successfully making a point about one-half mile south of the Miners' Mill, when being entirely out of his latitude with no bearings and darkness coming on, he was compelled to beat a retreat and return to town, making a new start this morning.

Healthy.

At Carson City, Nev., they have scarlet fever, mumps, pneumonia, whooping cough, measles, epizootic, glanders, hog cholera, leprosy, salt rheum and elephantiasis, and feeling lonesome, have instituted a close search for smallpox.—[Record-Union.

In addition they are troubled with shorts—a general newspaper complaint, often fatal. The Legislature to meet on the 12th will probably afford some relief, as coin talks in the rotten borough.

Postponement.

In consequence of the severe snow storm, the public school entertainment to have come off at the Miners' Union Hall to-morrow evening is postponed until Monday evening, or such time as the weather will permit, of which due notice will be given.

"SCHEME!"

To Delinquents.

There is upwards of $1,000 due the STANDARD-NEWS office for subscriptions. The money is required in the business, and unless paid by the first of January, 1881, the papers of all delinquents will be stopped.

Ruaway Under Difficulties.

A delivery team was brought out this morning. They were full of life and high-spirited, starting on a trip without a driver, got frightened at Billy Thomas trying to stop them, and away they went on a dead run, bringing up in a snow-bank.

The Hook and Ladder Company, No. 1, will meet at the engine house on Tuesday evening at half-past seven sharp. A full and prompt attendance is desired, as important business will be transacted. *td

NOTES ABOUT TOWN.

Snow raises wood.

Private poker games are now the order of the night.

The night watchmen have a fearful time these nights.

The Bodie Rifle Club will give due notice of their next match.

Alaska overshoes are now in demand and everybody that can wears them.

There is a corner in wood. Teamsters won't haul it, and dealers have raised.

There is only eighteen inches of snow after the first big storm of the season.

Johnny Turner's pung will now come in good play. Wonder if it is loanable!

As we go to press the beautiful snow comes down in fine, fleecy clouds, and the end is not yet.

Preparations for the Sabbath-school Christmas tree are now in order. Let us have a good one.

Any subscriber missed in the blind-storm of last evening will find their paper in the postoffice.

There are no complaints of this storm not coming up to a fair standard. All appear satisfied.

Notwithstanding the storm and snow, Johnson of the Bodie House sets a better table than ever.

This weather is heavy on the blacksmiths, who are working night and day, fitting up the sleigh fleet.

The STANDARD-NEWS carrier thinks traveling over the hill is a pleasure trip, especially the one of last night.

That venerable individual, the oldest inhabitant, failed in his weather predictions totally. He is a detusion and a snare.

A Mexican last night played his wife off at a game of poker, and she went off perfectly satisfied with her new liege.

Judge Peterson is preparing a relief bill for services rendered the State. We are with him on that—provided a divvy is made.

The storm of the season absolutely started in without a three day's blow, contrary to all precedent. We object to all such innovations.

A Hot Scotch or Tom and Jerry is a lucious beverage just as you wish to retire, and McDermott & Cullen know just how to prepare either.

For a beautiful Christmas present for your wife, daughter, sister or ——, just call at Hoffman Brothers, and you will find what will suit them.

Coal oil stoves are now in demand for regulating office temperature. Brophy is the introducer, and has been declared a public benefactor.

A beautiful three stone diamond ring a perfect gem of an ornament, worth $110; price $63, at Uncle Harris', 221 Kearny street, between Bush and Sutter.

Weiler's "Owls" carry the day. Smokers will use no other brand. Without exception, judges say they are the best bit cigar ever brought to Bodie.

The Bodie STANDARD-NEWS furnishes special dispatches, is filled with items of interest, and is the only paper in Bodie that is run on a strictly cash basis.

Stevens & Smith sell as low at private sale as at auction. A fair offer is never refused, and they can furnish you with everything you want in the household line.

Gillson & Barber have the most complete tin and sheet-iron ware shop in the mountains. They make a specialty of water pipe and fixings, arranging them so they never freeze.

The first victim to the snow fiend was a Spaniard, who sank exhausted in the snow on Green street, some time during the night. He was found this morning wrapped in his snowy mantle.

Parties who wish to trade with honorable business men, and get what they bargain for, of a standard quality, and at lowest rates, will do well to consult the advertising columns of the STANDARD-NEWS.

The Hooks failed to meet last night as per notice. The storm was too severe to turn out for that purpose. Nothing short of a fire alarm could have brought them out. Good firemen are the Hook boys.

For Christmas presents at manufactures' prices call on Hollander, where you will find fine jewelry, watches at any price, elegant ladies' sets, rich silver ware. In fact everything you want in the jewelry line.

All the boys and girls in town are getting their patent runners for double geered coasters ready and in order for use. A few are finished, and as soon as a trail is broken the business of rolling in the snow will commence.

The wind is not heavy, but comes in gusts, lifting clouds of dry snow, keeping the air filled, and carrying it from point to point. Deceptive to the valley emmigrant who honestly thinks we are having a terrible snow storm.

Nothing like comfort such weather as this. Anything that brings the desired object is a great blessing. We agreed to that proposition on receipt on a small demijohn of the brand "Bourbon—1860" from M. Meyers. It exhilerates, but does not intoxicate.

Ellis, the well-known stationer and billiard parlor proprietor, has removed his extensive establishment next door north of A. B. Stewart's drug store. His stock is full and complete; suited to the Bodie trade. Mr. Ellis is agent for the leading San Francisco and Eaetern papers, monthly and quarterly magazines. His place is being fitted up in fine style.

At a spiritual seance, the other evening, a lady medium was taken possession of by the celebrated Indian spirit, Great Heart, who is a leading and popular spirit of the seancists. After a few preliminaries, the medium broke out into a volley of oaths. The chain was broken, and, on consultation, it was decided that an evil spirit had taken possession of the medium.

He was asked to go for the medicine, and rushed out in a terrible hurry. It was dark, and he landed in a snow bank. The prescription was lost, and he ran for the doctor. Arriving at his office hearly dead, he found the doctor out with a notice—"At the Con. Pacific." He started up the hill in the blinding storm, found the doctor, got his prescription and returned, arriving at 12 M. Tom Williams was the victim.

Our people should not forget when they go to the city to call on Uncle Harris. We hear of a great many people being victimized in numerous dens in San Francisco, that call themselves by different names——such as Uncle's and Uncle this and that. Our citizens should be sure and take a little pains and see that when purchasing, they read the name of Uncle Harris on the windows and in the store, No. 221 Kearny Street, between Bush and Sutter.

Dry pine wood for sale at $10 per cord. Apply to Ike Phillips, at Jack Gunn's saloon. *

A GOOD JOKE.

Sam. Davis, the Carson Fiend, [After Judge Cary.

On Saturday last Justice Cary went out to Swift's springs to take a bath, and getting into the Springs wagon toob a back seat. An old lady and her daughter took the front seat, which completed the quota of passengers. The horses were bowling along at a smart pace when Judge Cary reached down to adjust a buckle on his shoe. Just then the young lady started, and a moment afterwards whispered to her mother. The old lady turned to the driver, and in a peremptory toxe ordered him to stop. He pulled up the horses and the lady, turning to the Judge, remarked in a rage:

"I hope, sir, that you do not mistake my daughter for the painted huzzies that you are associating with. We are ladies, I would have you understand. Yes, sir, ladies."

Mr. Carry was so utterly taken back that he was for several minutes unable to reply, and the woman continued to scowl upon him.

"You are too old a man to insult unprotected women, sir, and I will have you arrested, sir. Yes, sir, arrested."

"My dear madam"—

"No dear madam to me, you cheeky old rascal. You look pious enough to be a preacher, but you are the worst old shamed-faced blackleg that I ever met in my life."

Her language simply struck the good justice dumb, and one of the passengers remarked that he was a justice of the peace, and an eminently respectable gentleman.

"I pity the party that ever elected such an old fraud then. They tar and feather such cattle in Boston," shouted the woman.

Just then the girl rose from her seat with a lively jump, and leaped at least a foot in the air, amid the suppressed laughter of the spectators. An investigation fully exonerated Justice Cary, and redeemed the record of the Republican party at Ormsby. The girl had been sitting on a crack in the seat which narrowed and widened with the jostling of the stage. Naturally enough when nipped by the crack she thought the Judge was pinching her. When the extent of the joke on Judge Cary was fully realized the passengers howled, and the choloric old lady never spoke another word except to glare at her daughter, who was also impressed with the ludicrousness of the situation, and she could not suppress a sly giggle occasionally. Suddenly she shouted:

"I think if the man who runs this line had any sense he'd put cushions on his seats."

"One of the passengers called her attention to the fact that the cushion had fallen off the seat and was beneath her No. 8 shoes, at which she grabbed it and put it in place.

Justice Cary vows that the next time he goes to the Springs that he will walk if there is a woman anywhere on the wagon.

Knights of Pythias Ball.

As this order has been recently organized and numbers upwards of fifty members from among our best citizens. The Knights propose to make this the "ball of the season." Advertisement and programme in full will appear at an early date. *

Challenge Accepted.

EDITOR STANDARD-NEWS: I find a card in your yesterday's paper from Samuel E. Humphry, stating that Mr. Scully refused to make a match for me to wrestle with him for $500 against $400 in Bridgport, or $400 against $500 in Bodie. The gentleman is mistaken. His challenge is accepted, and I will give him the choice of places on the terms offered. Man and money are ready at Jas. Scully's saloon. Money talks—jaw bone don't win. *

NEVADA MINING NOTES.

Pioche Notes.

The Bay State mine, Bristol District, has about 2,000 tons of ore in sight.

A number of old-timers, who have not been in Pioche for a long period, among whom is Joseph Opie, Bill Sheriff and Larry Davis, arrived here during the week.

Several chloriders have leased the Raymond & Ely mine until the time for redemption expires, with a view of chloriding in the same. They are working on the tenth level. Steam is gotten up both morning and evening for the purpose of lowering and hoisting the men in and out of the mine.

Henry Raymond returned from San Francisco a week ago and has been busy trying to secure machinery, which he has succeded in doing, for the purpose of erecting a five stamp mill in Pahranagat Valley, in the vicinity of the Green Monster and other mining property owned by Harry Henderson & Co.

Ward Notes.

From the Reflex.

Snow fell in Ward Tuesday night to the depth of two inches.

There are quite a number in Ward who are willing to stake small sums that ore will be encountered in the crosscut in the Martin White tunnel by the first of January.

The Martin White main tunnel was about 3,075 feet in length when it was cut down to a single track Tuesday last. The progress made in future will be from six to eight feet daily, or about the same as now made in the crosscut.

Monday last the unwelcome order came to the main tunnel of the Martin White Company to discharge 21 men, change from eight to ten-hour shifts, and cut the tunnel down from a double to a single track. We suppose the object was to curtail expenses, and thereby prevent assessments coming so thick and fast.

To Owners of Horses.

Having an experience of twenty-five years as a veterinary surgeon, seventeen of which I have practiced in high altitudes with marked success, I now offer my services to the owners of horse-flesh in Bodie and Mono county, guaranteeing to effect a cure in any of the following described diseases of the horse if the animal be placed in my charge within a reasonable time after the attack: Colds, coughs, colics, kidney affections, fearcy and spavins, all lameness, sprains, swellings, lung fever in all cases when delivered within eight or ten hours after the attack. The symptoms of this disease are detected by the drooping of the animal's head, quick pulsation and rapid breathing. All diseases of this noble animal successfully treated when a cure is possible. Office and stable room with Joe. Kingsley Bodie. P. W. MURRAY, Veterinary Surgeon. *

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crylng with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Wicslow's Soothing Syrup. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. *

A Caution!

A cough, cold or sore throat should be stopped. Neglect frequently results in an incurable lung disease or consumption. Brown's Bronchial Troches are certain to give relief in cases of asthma, bronchitis, coughs, catarrh, consumptive and throat diseases. For thirty years the troches have been recommended by physicians, and always give perfect satisfaction. They are not new or untried but have been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Public speakers and singers use them to clear and strengthen the voice. Sold at 25 cents a box everywhere. *
